Dear GSA Contract Partner:

Congratulations on receiving your GSA Multiple Award Schedule (MAS) Contract. A copy of your awarded pricing/commercial catalog and/or price list, as accepted by the Government, along with a copy of your contract are available in the eOffer system where you submitted your original offer.

The following clauses in your contract require your immediate attention:

- I-FSS-600 - Contract Price Lists. This clause provides instructions for preparing your paper and electronic Federal Supply Schedule catalog price lists, as well as instructions for printing paper price lists. **The preferred method of distribution is electronic in accordance with your contracting officer's instructions and to the National Schedules Information Center at NCSCcustomer.service@gsa.gov.**
- 552.238-71 – Submission and Distribution of Authorized GSA Schedule Price Lists. In accordance with this clause, you are required to submit your electronic catalog data for inclusion in GSA Advantage!

This data, at a minimum, must contain a text file that reflects the information shown on your award document, SF 1449, beginning on page 1C through point 26.

For instructions on submitting your data, log on to our Vendor Support Center (VSC) website at <https://vsc.gsa.gov> to download the latest version of the Schedule Input Program (SIP). If you prefer to use Electronic Data Interchange (EDI), the latest 832 Sample Set can be found at this website as well.

For assistance in the preparation and transmission of your electronic file for inclusion in GSA Advantage!, please visit the VSC at the website shown above. Once there, go to Getting on Advantage!, Getting Started, Vendor Startup Kit.

You must submit your electronic catalog file to GSA within 6 months from the date of this contract award. Failure to submit your electronic catalog data within 6 months from date of contract award may result in cancellation of your contract. In addition, you cannot gain access to the GSA eBuy system until you have an approved catalog and text file posted on GSA Advantage!.

Once submitted and reviewed and approved by your GSA Contracting Officer, your

electronic catalog will appear on GSA Advantage! For additional information, please reference clause I-FSS-599 – Electronic Commerce.

- 552.238-74 – Industrial Funding Fee (IFF) and Sales Reporting. This clause provides instructions for reporting sales electronically to the FSS 72A website. You must contact the VSC immediately to register your contract information. This may be done via telephone by calling 703.605.9992 or 877.495.4849, or electronically on the 72A website (<https://72a.gsa.gov>). Also, this clause provides instructions for remitting a fee based on your sales reports, as required by your contract.

Did you know that you can pay your IFF online? GSA is pleased to provide you with the option of paying online via electronic check (direct debit) or credit card. It's fast, it's easy, and it's secure. The new system eliminates the expense and administrative burden of processing paper checks, delays that are inherent in sending checks through the mail, and the need for post payment research. Details can be found at the 72A website referenced above

If you are unable to pay online using a credit card or online check, please mail a check to:

General Services Administration
Industrial Funding Fee (IFF)/SIFT
P. O. Box 979017
St. Louis, MO 63197-9017

- 52.222-26 – Equal Opportunity Clause. This clause requires that the enclosed posters (**Enclosures 1, 2, 3 and 4**) be displayed in a conspicuous place available to employees and applicants for employment. Subcontractors must similarly display the EEO poster. Prime contractors and subcontractors are required to file the Equal Employment Opportunity EEO-1 Survey in accordance with the instructions found at <http://www.eeoc.gov/eo1survey/>.

American Recovery and Reinvestment Act (ARRA) of 2009: If you have elected to participate in the ARRA program, assure you display the enclosed ARRA Whistleblower Rights poster (**Enclosure 5**).

Modification Requests: The Greater Southwest Acquisition Center's Schedule's program will only accept contractor initiated modification requests via the GSA eMod system. The eMod system is a web-based application that allows contractors to electronically prepare and submit modification requests.

Information and training relating to the eMod system is located on the VSC website. Once there, go to Contract Administration, Modifications, e-Mods.

Consistent with current practices, modification requests initiated via the eMod process must be submitted by an authorized contract representative. Your authorized contract representative must obtain a digital certificate before initiating an eMod. A digital certificate is an electronic credential that identifies you, your organization and your web browser. You will not be able to enter a modification request into the eMod system without a current digital certificate.

Should you receive an error message concerning authorized negotiators when you input your first eMod, please contact your GSA Contracting Officer for assistance with the initial input.

The following link will provide guidance on utilizing the eMod system, obtaining digital certificates, and using the eMod training guide.

<http://eoffer.gsa.gov>

Look for links to the eMod process and instructions on how to obtain a digital certificate.

Prior to submitting an emod, please contact your GSA Contracting Officer to discuss the required documentation you must submit within your particular emod requests, i.e., change of address, change in phone/fax number, changes in points of contact, adding products, product deletions, requesting an economic price adjustment, etc. A formal modification will be issued to incorporate the changes and the modification is not effective until signed by the GSA Contracting Officer.

Training & Marketing: We look forward to developing a business partnership and a mutually satisfying relationship with you. Excellence in acquisition is a priority for GSA, and we provide several training and marketing tools to assure the proper use of GSA contracts. We strongly encourage you to review and consider these tools when doing business with your government customers.

Training: GSA recognizes the need for quality training and offers customers, contractors and the general public, free training at <https://interact.gsa.gov>. We encourage you to make a difference and help your customers understand how to properly use and understand the GSA Schedules program by directing them to this free training website or include the following statement in your Contract Price List:

“Free training on the use of the GSA Schedules program can be accessed through <https://interact.gsa.gov/>.”

Recommended viewing for all of the people in your company who will be administering any part of the contract is the New Contractor Orientation Webcast which has been developed to provide you with critical information on contract requirements and contractor responsibilities. This is a beneficial tool to help contractors comply with contract terms and conditions, and will help you in generating business and fulfilling customers' needs. The presentation can be accessed at any time by simply going through the VSC website, <https://vsc.gsa.gov> and clicking on the Vendor Training tab.

Marketing: GSA has recently developed a free webinar for GSA Schedule contractors about how to market to the federal government called “GSA Schedules Training for Vendor Success” You can access this webinar at <http://interact.gsa.gov/groups/contractor-success> and join the “Schedules Contractor Success - Marketing Matters!” group. We highly encourage your marketing team to take some time to view this webinar as soon as possible, in order to be as successful as possible with your new contract. Per contract clause I-FSS-639, Contract Sales Criteria, you are required to obtain a minimum of \$25,000 in sales within the first two years of contract performance and \$25,000 per year each year thereafter; therefore, it is critical that you actively market your contract and seek opportunities through GSA eBuy in order to meet this requirement. Your contract may be cancelled, or the available contract option(s) may not be exercised, if you do not meet the contract sales criteria.

GSA occasionally hosts or participates in industry supply and service expositions or other marketing activities that may be of interest to you. To receive notifications about these opportunities, please provide your company’s corporate marketing point of contact to the GSA Contracting Officer and to the FSS Office of Marketing, Communications Division (FMC) CM4, 2200 Crystal Drive, Crystal Plaza 4, Room 200, Arlington, Virginia 22202-4502, within 15 days from the date of this letter.

The Federal Procurement Data System (FPDS-NG) at <https://www.fpds.gov> is the Government's central repository of statistical information on federal contracting. The FPDS database is a searchable system that can provide customer-focused sales reports to aid in your marketing efforts. The FPDS reports identify customer information, such as the procuring agency, a description of what was purchased, from which contractors, for how much, when and where.

Please visit www.gsa.gov/market2feds for help in marketing your products to the Federal Government.

Logo: You may use the “GSA Schedule Contract Star Mark” and other authorized logos to identify your Schedule contract to the Federal community. The design is flexible, allowing you space to insert your Contract Number.

Guidelines for the proper use of the GSA Logo and Schedule Contract Star Mark are provided at www.gsa.gov/logo. Use of these designs does not eliminate the requirements that a contractor comply with the provisions of the General Services Administration Acquisition Manual (GSAM) Clause 552.203-71, Restriction on Advertising. It is appropriate to use the designs in an advertisement directed to Federal Government contract users, provided the advertisement does not state or imply that the product or service is endorsed or preferred by the government.

GSA SmartPay® 2: GSA SmartPay® 2 is a follow-on program to the original GSA Smart Pay® program, the government's charge card program. The GSA SmartPay® 2 brochure is enclosed (**Enclosure 6**).

GSA Schedules: We invite you to visit the GSA Schedules web site at gsa.gov/schedules for up to date information on the GSA Schedules program. Your firm will be listed as a GSA contractor under the "GSA e-Library" tab as well as the contact information for your current contracting officer. You may search this site by contractor name, contract number, alphabetical listing, or keywords.

GSA Reverse Auctions: The GSA Reverse Auction Team invites you to view and discover opportunities from over 21 federal agencies looking to purchase non-complex commodities and simple services through the GSA Reverse Auction Platform. Last fiscal year over \$21 million was purchased through the platform, with over 85% of the sales awarded to small businesses. This number is expected to grow with the addition of state and local governments using the platform for Schedule 70 and 84 products. The price of the apparent low bidder is visible to all competing vendors (company name is withheld for privacy) so that participants can make informed business decisions about quoting.

GSA Reverse Auctions are another outlet or platform that your firm can use to potentially create or generate sales, so we encourage you to use the GSA Reverse Auction Platform. There is no fee for using the platform. Logging into the GSA Reverse Auction Platform is as simple as using your current e-buy login (user ID and password). At a minimum, we recommend that you bid your schedule price for products and services on your Federal Supply Schedule contract. Try GSA Reverse Auction at <https://reverseauctions.gsa.gov>. For training, register at <http://www.gsa.gov/events> or call [855-372-1094](tel:855-372-1094).

Should you have any questions, please do not hesitate to contact the undersigned at 817-850-8319 or via eMail at hazel.hartfield@gsa.gov. Again, we look forward to working with you.

Sincerely,

Hazel L. Hartfield
Contracting Officer

Pasek Corp.

Contract Number (See SF 1449, Block 2)

Pasek Corp.'s offer dated October 31, 2014 and Final Proposal Revision dated September 10, 2015, submitted in response to standing Solicitation No 7FCI-L3-030084-B, for Multiple Award Schedule 084, entitled Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue, is hereby accepted by the Government for Special Item Number(s) 246-35-1, 246-35-2, 246-36, 246-1000 and 426-4S, for the contract period October 1, 2015 through September 30, 2020.

A Subcontracting plan was not required for contract award.

Verbatim Extract from Pasek Corp. Commercial Pricelist, Effective October 2014, is approved to be used as the basis of award. Price List has been annotated to reflect Special Item Number (SIN) applicability for each item.

Most Favored Customer/Basis of Award Customer: Award is based upon discounts granted to Pasek Corp. Most Favored Customer (MFC) or Basis of Award (BOA) Customer identified as "All Commercial Customers".

The award is predicated upon the above-listed MFC or BOA; therefore, it is that customer upon which the Price Reduction Clause, 552-238-75, will be activated.

Pasek Corp.'s Most Favored Customers (MFC) and Basis of Award (BOA) for this contract are "*All Commercial Customers*". The price/discount relationship between the Government and the MFC will never be less favorable to the Government than at the time of award, that is: For the life of the contract, the Government and MFC's, *which are All Commercial Customers*, basic discount relationship by model will always be maintained as reflected on the attached pricing proposal spreadsheet.

The Economic Price Adjustment Clause 552-216-70, applies to all items awarded herein.

The Industrial Funding Fee (IFF) is a separate collection mechanism and any increase or decrease in the fee does not change the price discount relationship stated above. The current IFF is .75% and should be calculated as follows:

Negotiated price divided by (1 minus .0075) which equates to Negotiated price divided by 0.9925.

Example: $(\$100,000 / 0.9925) = \$100,755.67$

The contract will be administered by the address shown in Block 9 of Page 1, except for administration of the Industrial Funding Fee and Contractor Report of Sales Program, which is delegated to:

General Services Administration, FAS
Supplier Management Division (4QVOCEA)
Peachtree Summit Federal Building

Equal Employment Opportunity is **THE LAW**

Private Employers, State and Local Governments, Educational Institutions, Employment Agencies and Labor Organizations

Applicants to and employees of most private employers, state and local governments, educational institutions, employment agencies and labor organizations are protected under Federal law from discrimination on the following bases:

RACE, COLOR, RELIGION, SEX, NATIONAL ORIGIN

Title VII of the Civil Rights Act of 1964, as amended, protects applicants and employees from discrimination in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment, on the basis of race, color, religion, sex (including pregnancy), or national origin. Religious discrimination includes failing to reasonably accommodate an employee's religious practices where the accommodation does not impose undue hardship.

DISABILITY

Title I and Title V of the Americans with Disabilities Act of 1990, as amended, protect qualified individuals from discrimination on the basis of disability in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. Disability discrimination includes not making reasonable accommodation to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, barring undue hardship.

AGE

The Age Discrimination in Employment Act of 1967, as amended, protects applicants and employees 40 years of age or older from discrimination based on age in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment.

SEX (WAGES)

In addition to sex discrimination prohibited by Title VII of the Civil Rights Act, as amended, the Equal Pay Act of 1963, as amended, prohibits sex discrimination in the payment of wages to women and men performing substantially equal work, in jobs that require equal skill, effort, and responsibility, under similar working conditions, in the same establishment.

GENETICS

Title II of the Genetic Information Nondiscrimination Act of 2008 protects applicants and employees from discrimination based on genetic information in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. GINA also restricts employers' acquisition of genetic information and strictly limits disclosure of genetic information. Genetic information includes information about genetic tests of applicants, employees, or their family members; the manifestation of diseases or disorders in family members (family medical history); and requests for or receipt of genetic services by applicants, employees, or their family members.

RETALIATION

All of these Federal laws prohibit covered entities from retaliating against a person who files a charge of discrimination, participates in a discrimination proceeding, or otherwise opposes an unlawful employment practice.

WHAT TO DO IF YOU BELIEVE DISCRIMINATION HAS OCCURRED

There are strict time limits for filing charges of employment discrimination. To preserve the ability of EEOC to act on your behalf and to protect your right to file a private lawsuit, should you ultimately need to, you should contact EEOC promptly when discrimination is suspected:

The U.S. Equal Employment Opportunity Commission (EEOC), 1-800-669-4000 (toll-free) or 1-800-669-6820 (toll-free TTY number for individuals with hearing impairments). EEOC field office information is available at www.eeoc.gov or in most telephone directories in the U.S. Government or Federal Government section. Additional information about EEOC, including information about charge filing, is available at www.eeoc.gov.

Employers Holding Federal Contracts or Subcontracts

Applicants to and employees of companies with a Federal government contract or subcontract are protected under Federal law from discrimination on the following bases:

RACE, COLOR, RELIGION, SEX, NATIONAL ORIGIN

Executive Order 11246, as amended, prohibits job discrimination on the basis of race, color, religion, sex or national origin, and requires affirmative action to ensure equality of opportunity in all aspects of employment.

INDIVIDUALS WITH DISABILITIES

Section 503 of the Rehabilitation Act of 1973, as amended, protects qualified individuals from discrimination on the basis of disability in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. Disability discrimination includes not making reasonable accommodation to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, barring undue hardship. Section 503 also requires that Federal contractors take affirmative action to employ and advance in employment qualified individuals with disabilities at all levels of employment, including the executive level.

DISABLED, RECENTLY SEPARATED, OTHER PROTECTED, AND ARMED FORCES SERVICE MEDAL VETERANS

The Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended, 38 U.S.C. 4212, prohibits job discrimination and requires affirmative action to employ and advance in employment disabled veterans, recently separated veterans (within

three years of discharge or release from active duty), other protected veterans (veterans who served during a war or in a campaign or expedition for which a campaign badge has been authorized), and Armed Forces service medal veterans (veterans who, while on active duty, participated in a U.S. military operation for which an Armed Forces service medal was awarded).

RETALIATION

Retaliation is prohibited against a person who files a complaint of discrimination, participates in an OFCCP proceeding, or otherwise opposes discrimination under these Federal laws.

Any person who believes a contractor has violated its nondiscrimination or affirmative action obligations under the authorities above should contact immediately:

The Office of Federal Contract Compliance Programs (OFCCP), U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210, 1-800-397-6251 (toll-free) or (202) 693-1337 (TTY). OFCCP may also be contacted by e-mail at OFCCP-Public@dol.gov, or by calling an OFCCP regional or district office, listed in most telephone directories under U.S. Government, Department of Labor.

Programs or Activities Receiving Federal Financial Assistance

RACE, COLOR, NATIONAL ORIGIN, SEX

In addition to the protections of Title VII of the Civil Rights Act of 1964, as amended, Title VI of the Civil Rights Act of 1964, as amended, prohibits discrimination on the basis of race, color or national origin in programs or activities receiving Federal financial assistance. Employment discrimination is covered by Title VI if the primary objective of the financial assistance is provision of employment, or where employment discrimination causes or may cause discrimination in providing services under such programs. Title IX of the Education Amendments of 1972 prohibits employment discrimination on the basis of sex in educational programs or activities which receive Federal financial assistance.

INDIVIDUALS WITH DISABILITIES

Section 504 of the Rehabilitation Act of 1973, as amended, prohibits employment discrimination on the basis of disability in any program or activity which receives Federal financial assistance. Discrimination is prohibited in all aspects of employment against persons with disabilities who, with or without reasonable accommodation, can perform the essential functions of the job.

If you believe you have been discriminated against in a program of any institution which receives Federal financial assistance, you should immediately contact the Federal agency providing such assistance.

EMPLOYEE RIGHTS

UNDER THE FAIR LABOR STANDARDS ACT

THE UNITED STATES DEPARTMENT OF LABOR WAGE AND HOUR DIVISION

FEDERAL MINIMUM WAGE

\$7.25

 PER HOUR

BEGINNING JULY 24, 2009

- OVERTIME PAY** At least 1½ times your regular rate of pay for all hours worked over 40 in a workweek.
- CHILD LABOR** An employee must be at least **16** years old to work in most non-farm jobs and at least 18 to work in non-farm jobs declared hazardous by the Secretary of Labor.
- Youths **14** and **15** years old may work outside school hours in various non-manufacturing, non-mining, non-hazardous jobs under the following conditions:
- No more than**
- **3** hours on a school day or **18** hours in a school week;
 - **8** hours on a non-school day or **40** hours in a non-school week.
- Also, work may not begin before **7 a.m.** or end after **7 p.m.**, except from June 1 through Labor Day, when evening hours are extended to **9 p.m.** Different rules apply in agricultural employment.
- TIP CREDIT** Employers of “tipped employees” must pay a cash wage of at least \$2.13 per hour if they claim a tip credit against their minimum wage obligation. If an employee’s tips combined with the employer’s cash wage of at least \$2.13 per hour do not equal the minimum hourly wage, the employer must make up the difference. Certain other conditions must also be met.
- ENFORCEMENT** The Department of Labor may recover back wages either administratively or through court action, for the employees that have been underpaid in violation of the law. Violations may result in civil or criminal action.
- Employers may be assessed civil money penalties of up to \$1,100 for each willful or repeated violation of the minimum wage or overtime pay provisions of the law and up to \$11,000 for each employee who is the subject of a violation of the Act’s child labor provisions. In addition, a civil money penalty of up to \$50,000 may be assessed for each child labor violation that causes the death or serious injury of any minor employee, and such assessments may be doubled, up to \$100,000, when the violations are determined to be willful or repeated. The law also prohibits discriminating against or discharging workers who file a complaint or participate in any proceeding under the Act.
- ADDITIONAL INFORMATION**
- Certain occupations and establishments are exempt from the minimum wage and/or overtime pay provisions.
 - Special provisions apply to workers in American Samoa and the Commonwealth of the Northern Mariana Islands.
 - Some state laws provide greater employee protections; employers must comply with both.
 - The law requires employers to display this poster where employees can readily see it.
 - Employees under 20 years of age may be paid \$4.25 per hour during their first 90 consecutive calendar days of employment with an employer.
 - Certain full-time students, student learners, apprentices, and workers with disabilities may be paid less than the minimum wage under special certificates issued by the Department of Labor.

The purpose of the discussion below is to advise contractors which are subject to the Walsh-Healey Public Contracts Act or the Service Contract Act of the principal provisions of these acts.

Walsh-Healey Public Contracts Act

General Provisions — This act applies to contracts which exceed or may exceed \$10,000 entered into by any agency or instrumentality of the United States for the manufacture or furnishing of materials, supplies, articles, or equipment. The act establishes minimum wage, maximum hours, and safety and health standards for work on such contracts, and prohibits the employment on contract work of convict labor (unless certain conditions are met) and children under 16 years of age. The employment of homeworkers (except homeworkers with disabilities employed under the provisions of Regulations, 29 CFR Part 525) on a covered contract is not permitted.

In addition to its coverage of prime contractors, the act under certain circumstances applies to secondary contractors performing work under contracts awarded by the Government prime contractor.

All provisions of the act except the safety and health requirements are administered by the Wage and Hour Division.

Minimum Wage — Covered employees must currently be paid not less than the Federal minimum wage established in section 6(a)(1) of the Fair Labor Standards Act.

Overtime — Covered workers must be paid at least one and one-half times their basic rate of pay for all hours worked in excess of 40 a week. Overtime is due on the basis of the total hours spent in all work, Government and non-Government, performed by the employee in any week in which covered work is performed.

Child Labor — Employers may protect themselves against unintentional child labor violations by obtaining certificates of age. State employment or age certificates are acceptable.

Safety and Health — No covered work may be performed in plants, factories, buildings, or surroundings or under work conditions that are unsanitary or hazardous or dangerous to the health and safety of the employees engaged in the performance of the contract. The safety and health provisions of the Walsh-Healey Public Contracts Act are administered by the Occupational Safety and Health Administration.

Posting — During the period that covered work is being performed on a contract subject to the act, the contractor must post copies of Notice to Employees Working on Government Contracts in a sufficient number of places to permit employees to observe a copy on the way to or from their place of employment.

Responsibility for Secondary Contractors — Prime contractors are liable for violations of the act committed by their covered secondary contractors.

Service Contract Act

General Provisions — The Service Contract Act applies to every contract entered into by the United States or the District of Columbia, the principal purpose of which is to furnish services in the United States through the use of service employees. Contractors and subcontractors performing on such Federal contracts must observe minimum wage and safety and health standards, and must maintain certain records, unless a specific exemption applies.

Wages and Fringe Benefits — Every service employee performing any of the Government contract work under a service contract in excess of \$2,500 must be paid not less than the monetary wages, and must be furnished the fringe benefits, which the Secretary of Labor has determined to be prevailing in the locality for the classification in which the employee is working or the wage rates and fringe benefits (including any accrued or prospective wage rates and fringe benefits) contained in a predecessor contractor's collective bargaining agreement. The wage rates and fringe benefits required are usually specified in the contract but in no case may employees doing work necessary for the performance of the contract be paid less than the minimum wage established in section 6(a)(1) of the Fair Labor Standards Act.

Service contracts which do not exceed \$2,500 are not subject to prevailing rate determinations or to the safety and health requirements of the act. However, the act does require that employees performing work on such contracts be paid not less than the minimum wage rate established in section 6(a)(1) of the Fair Labor Standards Act.

Overtime — The Fair Labor Standards Act and the Contract Work Hours Safety Standards Act may require the payment of overtime at time and one-half the regular rate of pay for all hours work on the contract in excess of 40 a week. The Contract Work Hours Safety Standards Act is more limited in scope than the Fair Labor Standards Act and generally applies to Government contracts in excess of \$100,000 that require or involve the employment of laborers, mechanics, guards, watchmen.

Safety and Health — The act provides that no part of the services in contracts in excess of \$2,500 may be performed in buildings or surroundings or under working conditions, provided by or under the control or supervision of the contractor or subcontractor, which are unsanitary or hazardous or dangerous to the health or safety of service employees engaged to furnish the services. The safety and health provisions of the Service Contract Act are administered by the Occupational Safety and Health Administration.

Notice to Employees — On the date a service employee commences work on a contract in excess of \$2,500, the contractor (or subcontractor) must provide the employee with a notice of the compensation required by the act. The posting of the notice (including any applicable wage determination) contained on the reverse in a location where it may be seen by all employees performing on the contract will satisfy this requirement.

Notice in Subcontracts — The contractor is required to insert in all subcontracts the labor standards clauses specified by the regulations in 29 CFR Part 4 for Federal service contracts exceeding \$2,500.

Responsibility for Secondary Contractors — Prime contractors are liable for violations of the act committed by their covered secondary contractors.

Other Obligations — Observance of the labor standards of these acts does not relieve the employer of any obligation he may have under any other laws or agreements providing for higher labor standards.

Additional Information — Additional Information and copies of the acts and applicable regulations and interpretations may be obtained from the nearest office of the Wage and Hour Division or the National Office in Washington D.C. Information pertaining to safety and health standards may be obtained from the nearest office of the Occupational Safety and Health Administration or the National Office in Washington, D.C.

NOTICE TO EMPLOYEES

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

Know Your Rights Under the Recovery Act!

Did you know?

The American Recovery and Reinvestment Act of 2009 ¹ provides protections for certain employees of non-federal employers who make specified disclosures relating to possible fraud, waste and/or abuse of Recovery Act funds.

Who is protected?

Employees of non-federal employers receiving recovery funds. This includes State and local governments, contractors, subcontractors, grantees or professional membership organizations acting in the interest of recovery fund recipients.

How are Whistleblowers Protected?

You cannot be discharged, demoted or otherwise discriminated against as a reprisal for making a protected disclosure.

What types of disclosures are protected?

The disclosure must be made by the employee to the Recovery Accountability and Transparency Board, an Inspector General, the Comptroller General, a member of Congress, a state or federal regulatory or law enforcement agency, a person with supervisory authority over the employee, a court or grand jury, or the head of a federal agency or his/her representatives.

The disclosure must involve information that the employee believes is evidence of:

- gross mismanagement of an agency contract or grant relating to recovery funds;
- a gross waste of recovery funds;
- a substantial and specific danger to public health or safety related to the implementation or use of recovery funds;
- an abuse of authority related to the implementation or use of recovery funds; or
- a violation of law, rule, or regulation related to an agency contract or grant awarded or issued relating to recovery funds.

Take Action!

Log on to Recovery.gov for more information about your rights and details on how to report at www.recovery.gov.

What if I am still unable to accept the GSA SmartPay® 2 card(s)?

Your business may be classified under a blocked Merchant Category Code (MCC). Businesses are required to label themselves by selecting a Merchant Category Code (MCC) that best describes the type of product or service provided. Certain MCCs are blocked by agencies to prevent fraud and misuse of the GSA SmartPay® 2 cards. If your company is experiencing problems accepting GSA SmartPay® 2 cards, it may be because the MCC your business is classified under is blocked by that agency. To remedy this problem, you may wish to change your MCC classification to better describe the type of product or service your company provides.

Note: Transactions against federal government accounts that are directly billed to the government are exempt from state and local taxes. Other cards that are not directly billed may also be tax exempt. For additional information regarding tax exemption, please go to www.gsa.gov/gsmartpay.

GSA SmartPay® 2

A Quick Guide to Accepting GSA SmartPay® 2

For more information about the GSA SmartPay® 2 program, please visit our Web site at www.gsa.gov/gsmartpay.

GSA SmartPay[®] 2 is a follow-on program to the original GSA SmartPay[®] program, the government's charge card program. Government cardholders utilize the program to pay for:

- Commercial goods and services
- Travel related expenses
- Fleet expenses

Three contractors provide the GSA SmartPay[®] 2 charge cards to over 350 government agencies and organizations. These contractors include: Citibank, JPMorgan Chase Bank and U.S. Bank. Each contractor provides purchase, travel, fleet and integrated (i.e. combination of two or more of the three business lines) charge card products and services.

Why should I accept the GSA SmartPay[®] 2 card(s)?

- The GSA SmartPay[®] cards continue to remain the preferred payment method of the government.
- These cards have become essential support tools for government agencies/organizations in supporting mission delivery.
- There are over 3 million cards in circulation, including more than 2 million travel cards, 300,000 purchase cards, and nearly 700,000 fleet cards.
- No government order forms to process.
- Reduced billing and collection costs.
- Facilitates electronic commerce.

How do I accept the GSA SmartPay[®] 2 card(s)?

GSA SmartPay[®] 2 cardholders may carry the following cards: VISA, MasterCard, Voyager, and Wright Express. Voyager and Wright Express cards may only be used for fleet related purchases. You can maximize your ability to capture government sales by accepting these charge cards. If you already accept these cards from the commercial sector, you have no additional work to do as the GSA SmartPay[®] 2 charge cards operate just like any other corporate charge cards. If you do not currently accept these cards, contact any financial institution or one of the GSA SmartPay[®] 2 contractors (i.e. only Citibank and U.S. Bank carry Voyager or Wright Express cards) to establish a merchant account.

What are my costs?

None, if your company already accepts the charge cards listed above. The transaction fees you negotiated with your bank to accept the cards from the private sector will apply to government sales as well. If you do not currently accept one or more of these cards and would like to participate, the cost of acceptance is negotiated between you and your selected financial institution.

How do I identify a GSA SmartPay[®] 2 charge card?

All GSA SmartPay[®] 2 charge cards use one of the four designs above. Additionally, all cards display the GSA SmartPay[®] 2 logo including the phrase "United States Government" and a statement referencing official government use.

To download copies of the cards, please visit www.gsa.gov/gsmartpay.

In addition to the card designs, Bank Identification Numbers (BINs), which can be found as the first four numbers in the sequence of the card, are used to identify GSA SmartPay[®] 2 cards including important information about the card and its user. The BINs for each type of card under GSA SmartPay[®] 2 are as follows:

Purchase charge card		Fleet charge card	
MasterCard	5568	MasterCard	5565
MasterCard	5565	MasterCard	5568
